**DOOR EDGE GUARDS
INSTALLATION INSTRUCTIONS**

Kit Contents:

- 2 - Door Edge Guards

Tools Needed:

- None

WARNING: Ensure you have sufficient gap between the door edge and quarter panel. Sagging or misaligned doors may cause damage to painted surfaces. Use at your own risk.

1. Clean the door edge, inside and out. Ensure the surface is totally dry before installing the guard.
2. Measure and cut door edge guard to desired length.
3. Install edge guard from top of door downward.
